About Dr. Rollan Roberts

Rollan Roberts II is an American businessman, government advisor, and 2024 Republican Candidate for President of the United States.

He is married to Rebecca Lea Roberts, with whom they share one son, Rollan III (R3), born July 4, 2023, and has 2 older daughters from a previous marriage. Rollan grew up in the holler of Beaver, West Virginia and started his career at the bottom working his way through college, and eventually getting his Master of Business Administration (MBA) from Liberty University and Doctor of Business Administration (DBA) from California InterContinental University. He has led small and large companies and helped underserved people start businesses around the world. He believes that entrepreneurship is the single, greatest economic engine on earth that levels the playing field and does not discriminate. Dr. Roberts has extensive experience with good governance, infrastructure, foreign

affairs, education, and diplomacy. He served with former Congress people and Ambassadors on a U.S. Delegation to South Sudan in 2021 and 2022, where he assisted with the stabilization of the transitional to permanent government. Previously, he has served as an advisor to national governments on matters of diplomacy, national security, entrepreneurship, education, clean water, wastewater, and waste-to-energy infrastructure. As well, he addressed China's intellectual property theft and the trade war to Beijing officials directly in the Great Hall of the People in 2017. And because of Dr. Roberts' governmental acumen, it was conferred upon him by the African diplomatic designation of His Excellency as Peace Ambassador to Nations from the International College of Peace Studies.

Dr. Roberts is a Republican who respects people and reason. He discusses issues, not labels; facts, not fantasy; and he leads with sound wisdom and truth. And now, with the help of Almighty God, he seeks to serve every American as President of the United States. According to Dr. Roberts, "The best version of America is one that does right by people and nations."

Dr. Roberts' Policies

DOMESTIC POLICY

My Domestic Policy is to spark a new wave of American innovation and ingenuity that will lead us into the 22nd century. Includes smart cities, smart infrastructure, and new scientific & mathematical discoveries. My administration will focus on societal advancement by reforming the tax system, education system, and energy sector.

FOREIGN POLICY

My Foreign Policy is to lead with diplomacy and aggressively defend America, American lives, and American interests at all cost. We will build a next-century military with advanced AGI capabilities with deterrence as the goal. I don't play games with foreign policy - we hyper-aggressively solve the problem the first time.

EDUCATION POLICY

I will overhaul the public education system to include a bachelors degree or trade certificate by age 18. Bachelor degrees and tradespeople are the minimum standard of an educated society and the backbone of our economy. Our youth will be well educated and prepared for economic contribution to their families and society. Parents and businesses will be well served as the school day is more closely aligned to traditional hours of employment.

Support Dr. Roberts

Your donation is an opportunity to invest in the America of tomorrow. If you support a new wave of American innovation, discourse, and leadership, please consider generously supporting our efforts! The maximum donation per individual is \$3,300 for the primary (\$6,600 per couple).
